

SPEAK UP

FOR THE FUTURE OF NURSING

Don't cut the NHS bursary
Lobby of Parliament 25 May 2016

UNISON
Health Care

Make your voice heard

The government wants to scrap the NHS bursary and force nurses into debt to the tune of £51,600 that will take them years to pay off. Many will be put off nursing which will have a massive impact on the NHS and patient safety.

UNISON believes that this is wrong and we'd like to invite you to come along and tell your MP about your experiences as a student and how the bursary has helped you. If you are not a student please come along and lobby your MP – NHS staff and patients can speak up against the government plans too.

Fill in your details to register an interest and we will send you further details, including help with what to say if you meet your MP.
